

Do You Know Where All of your Carts Are?

With Cart Tracking by Bemis, you can.

Cart Tracking by Bemis is a revolutionary system that allows you to remotely monitor every cart in your fleet.

In addition to making stolen cart retrieval more efficient and easier than ever, this technology can help you answer questions like:

How many carts need to be repaired at store 2639?

What is the cart count at all of my locations?

Do customers at store 33 prefer larger or smaller carts?

With Bemis Cart Tracking you'll know how many carts you have, what needs to be fixed, when they are stolen and where they are.

Find Your Carts, All of Them
