

HAND BASKET

TWO USES IN ONE BASKET

Function and Design!

The innovative Bemis Retail Solutions hand basket is the perfect accessory to your shopping cart fleet. Doing double duty, this hand basket can be used on its own for smaller shopping needs or nested in the front of the full-size cart for a unique fresh basket.

The nestable fresh basket is a great way for your guests to keep the more delicate items separate from the rest of their order. Fresh fruits, vegetables and soft bakery bread remain intact and un-touched in this uniquely designed basket.

Hand Basket Volume = 1200 Cubic Inches
